

CODEBASICS RESUME PROJECT CHALLENGE

JUNE 2026

Decoding the **2026** Tamil Nadu Assembly Election

A Data-Driven Analysis of Electoral Shifts,
Constituency Flips, and Victory Margins

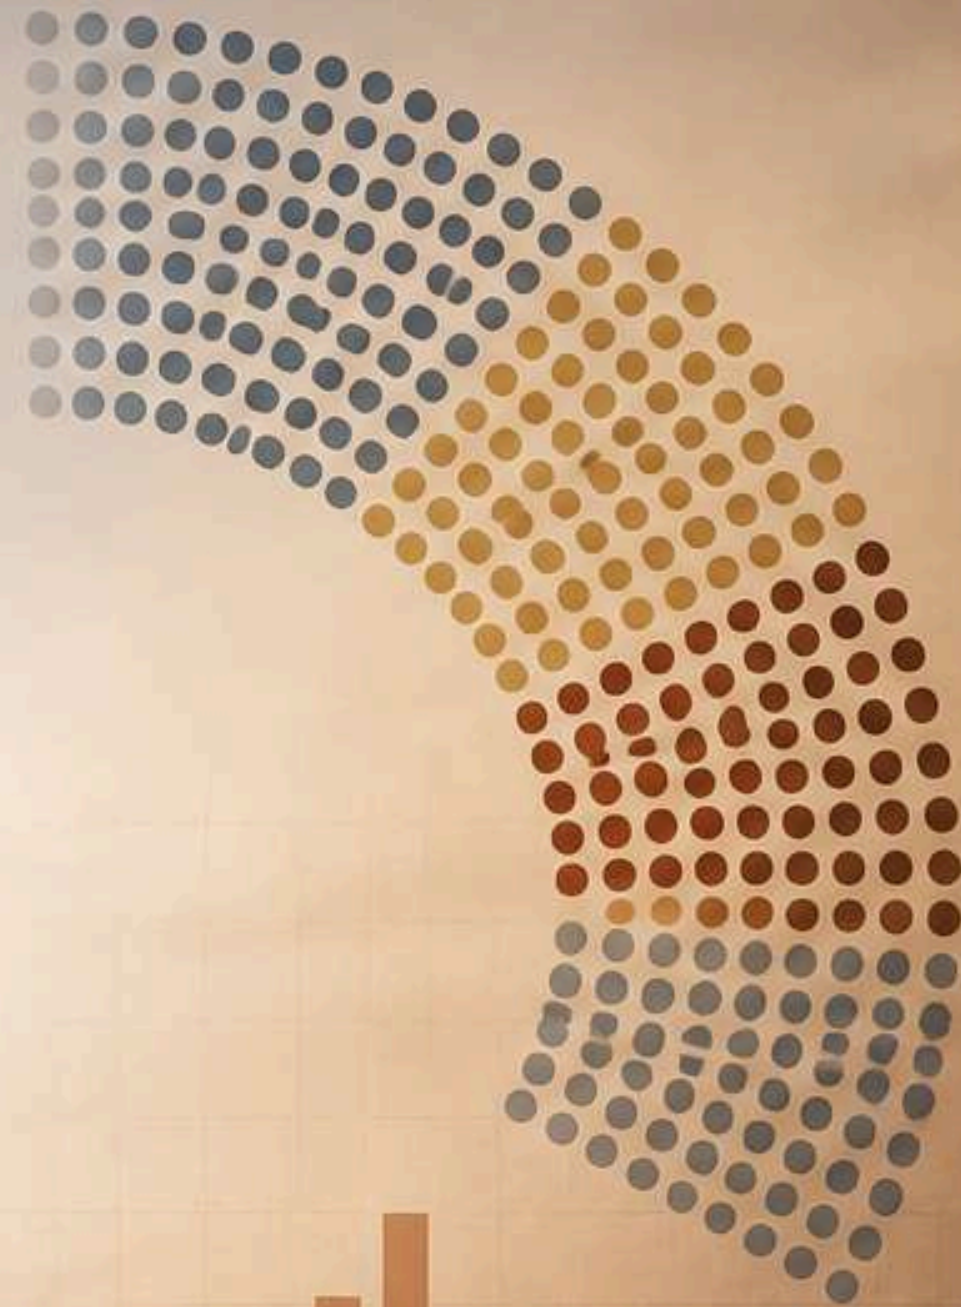

PRESENTED BY

FARIDHA

Data Analyst | Visual Storyteller

THE ELECTION THAT RESHAPED TAMIL NADU'S POLITICAL BALANCE

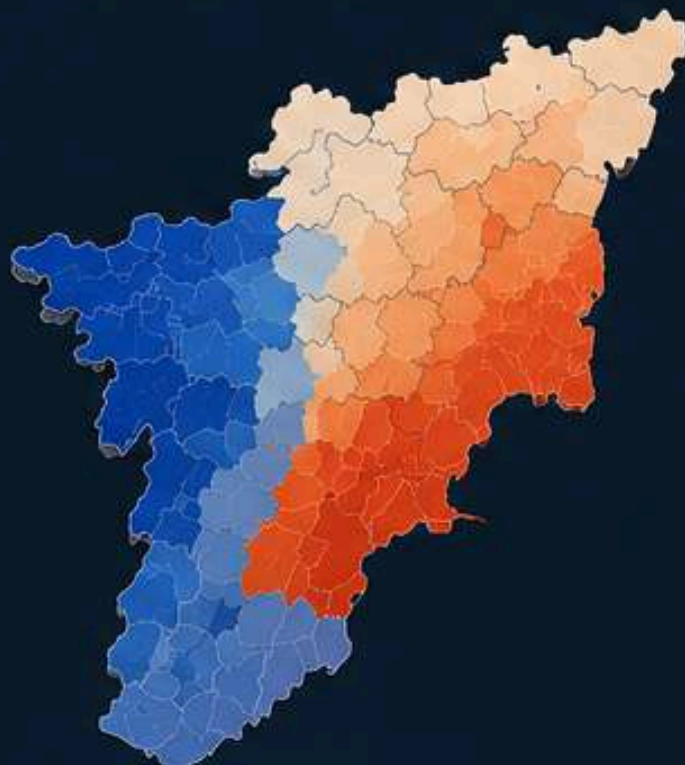

Where Did the Shift Really Happen?

1

The Geographic Story

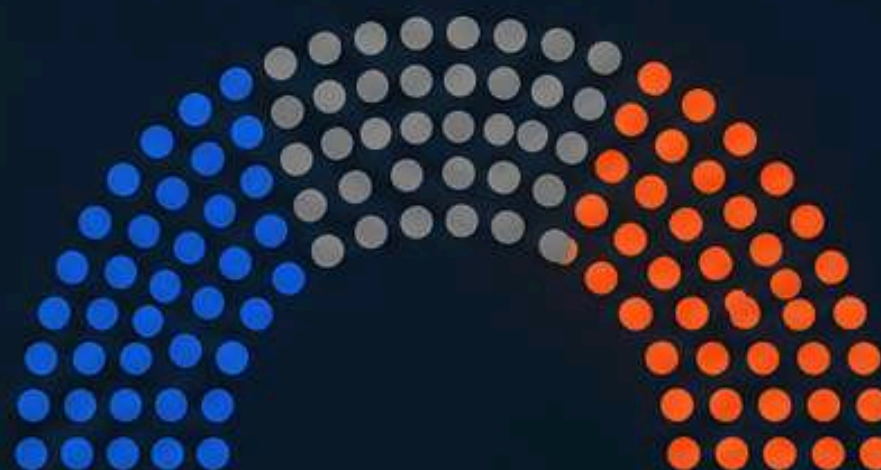

Which regions quietly shifted the balance of power?

2

The Flip Story

Which constituencies changed sides — and which remained loyal?

● FLIPPED TO NEW SIDE

● REMAINED LOYAL

● FLIPPED TO OTHER SIDE

3

The Margin of Victory Story

How big was the gap in victories?

HOW REGIONAL POLITICAL BALANCE **SHIFTED** BETWEEN 2021 AND 2026?

How Regional Political Balance Shifted Between 2021 and 2026?

CHENNAI METRO

A complete reversal
of political power.

One of the biggest shifts
in the state.

But to truly understand this shift,
we need to look constituency by constituency.

How many seats stayed loyal...
and how many changed sides?

That brings us to the Flip Story.

Out of **234** constituencies,

161

**Constituencies
that changed sides**

73

**Constituencies
that stayed with
the same party**

The Flip Story: How Constituencies Changed Sides

108 seats

(**65** from DMK
+ **26** from AIADMK
+ **17** from Others)

A CLEAR PICTURE EMERGES.

THE GEOGRAPHIC STORY
SHOWED WHERE THE
POLITICAL BALANCE SHIFTED.

THE FLIP STORY
SHOWED HOW
CONSTITUENCIES CHANGED HANDS
ACROSS THE STATE.

161

CONSTITUENCIES
CHANGED

73

CONSTITUENCIES
RETAINED

**THE 2026 ELECTION DIDN'T JUST CHANGE WINNERS.
IT RESHAPED TAMIL NADU'S POLITICAL BALANCE.**

BUT ONE FINAL QUESTION REMAINS.

HOW STRONG WERE
THESE VICTORIES?

WERE WINNERS
COMFORTABLY AHEAD...

OR JUST A FEW VOTES
AWAY FROM DEFEAT?

THAT BRINGS US TO
THE MARGIN OF VICTORY STORY.

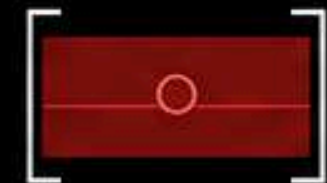

VS

COMFORTABLY AHEAD
Large Margin of Victory

JUST A FEW VOTES AWAY
Narrow Margin of Victory

THE MARGIN SHRANK. THE BATTLE INTENSIFIED.

Average Victory Margin (Winner vs Runner-up)

2021

WINNERS WERE AHEAD BY AN AVERAGE OF

11.7%

WINNER

RUNNER-UP

THE MARGIN
DECREASED BY

4.0%
POINTS

2026

WINNERS WERE AHEAD BY AN AVERAGE OF

7.7%

WINNER

RUNNER-UP

THE GAP BETWEEN
WINNER AND RUNNER-UP
BECAME MUCH SMALLER.

THIS SHOWS THAT THE 2026 ELECTION
WAS FAR MORE COMPETITIVE,
WITH MANY CONSTITUENCIES TURNING
INTO CLOSELY FOUGHT CONTESTS.

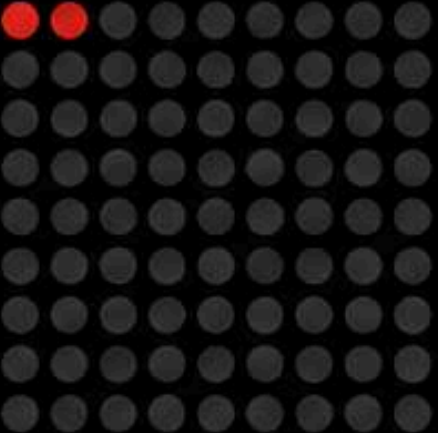

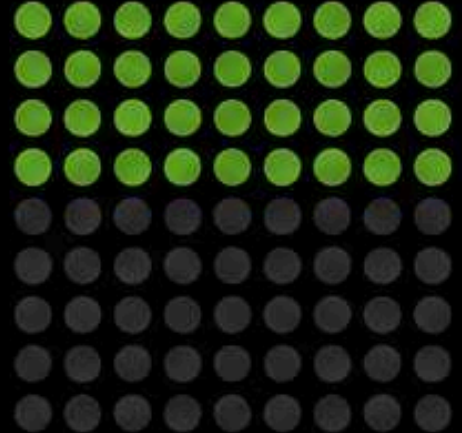

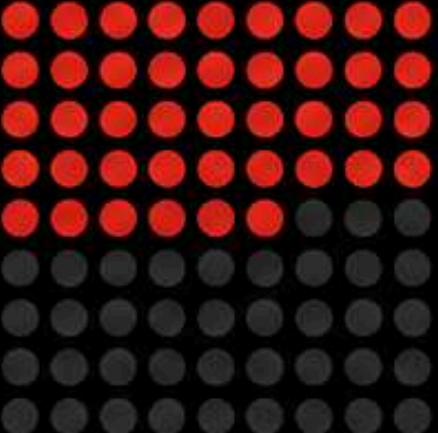

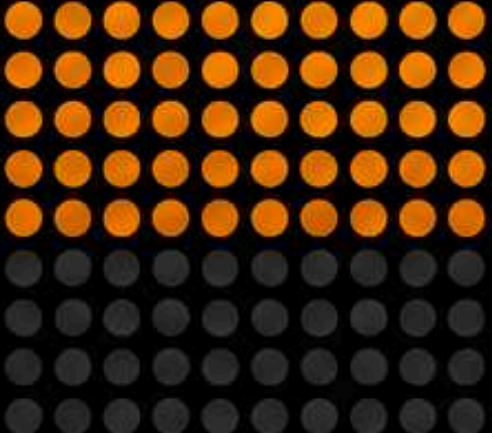

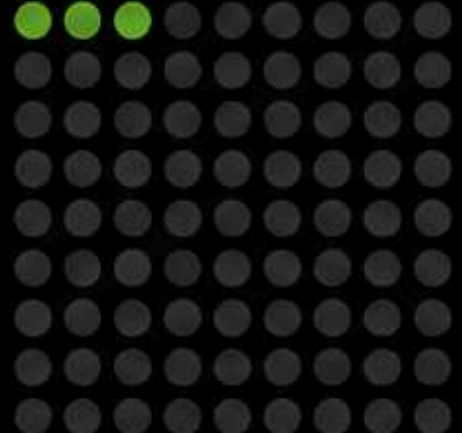

Data Source: Election Commission of India

Analysis & Visualization: AtliQ Media

THE VOTE-SHARE NUMBERS REVEAL THE SAME TREND.

	LESS THAN 35%	35% - 50%	MORE THAN 50%
2021 	 2 Constituencies	 162 Constituencies	 70 Constituencies
2026 	 64 Constituencies	 157 Constituencies	 13 Constituencies

Constituencies won with less than 35% vote share rose sharply from **2** to **64**.

Constituencies in the 35% - 50% range remained almost the same (**162** to **157**).

Constituencies won with more than 50% vote share dropped sharply from **70** to **13**.

Across regions, constituencies, and victory margins...

The data points to the same conclusion.

The Election That Reshaped Tamil Nadu's Political Balance

— A data-driven story of how Tamil Nadu changed between 2021 and 2026. —

EDITORIAL RECOMMENDATIONS FOR **ATLIQ MEDIA**

A data-first roadmap for a one-hour TV show on the 2026 Tamil Nadu Assembly Election

1. **LEAD WITH THE GEOGRAPHIC STORY**

Begin the show by showing where the political balance shifted across Tamil Nadu's six regions. Regional shifts provide viewers with the quickest understanding of how the electoral map changed.

2. **USE THE FLIP STORY AS THE CORE NARRATIVE**

Highlight the 161 constituencies that changed sides and the major seat movements between parties. This reveals how the election outcome was reshaped at the constituency level.

3. **CLOSE WITH THE MARGIN STORY**

Use narrowing victory margins and changing vote-share patterns to explain why the 2026 election was more competitive than 2021.

4. **FOCUS ON DATA, NOT DEBATE**

The strongest story comes directly from Election Commission data:

✓ Regional power shifts | ✓ Constituency flips | ✓ Narrower winning margins

THE 2026 ELECTION WAS **NOT** DEFINED BY A SINGLE REGION OR CONSTITUENCY. IT WAS THE **COMBINED EFFECT OF REGIONAL SHIFTS, CONSTITUENCY FLIPS, AND TIGHTER CONTESTS** ACROSS TAMIL NADU.

DATA LIMITATIONS

A clear understanding of what the data can — and cannot — tell us.

1. SOURCED ONLY FROM ECI DATA

This analysis uses only official Election Commission of India data from 2021 and 2026.

2. RESULTS-LEVEL ANALYSIS

Insights are based on constituency-level results. Booth-level and voter-level behavior are not analyzed.

3. NO DEMOGRAPHIC INFERENCE

No demographic, caste, religious, or socio-economic inferences are made. Census data used only for boundaries.

4. NO EXIT POLLS OR SURVEYS

This study does not use exit polls, opinion polls, surveys, news articles, or social media data.

5. DESCRIPTIVE, NOT EXPLANATORY

The findings describe what happened, not why it happened. Causes behind results are beyond the scope of this analysis.

6. TIME & CONTEXT BOUNDARIES

This analysis is limited to the 2021 and 2026 Tamil Nadu Assembly Elections. It does not account for future events or by-elections.

All insights are presented in a **neutral, non-partisan** manner. No party, leader, community, or region is endorsed or criticized.
